

## Testimonials

"I wanted to take this opportunity to thank each and every one of you for endless hours you spend taking care of not only my dad, but all of the patients who find themselves in the situations they are in. Your fine work is appreciated, not only by the fine people in your care, but also by all the families involved."

-Sharon G

"My Husband has been there at Mission de la Casa since December of 2008, and I want to express to you what it has meant to our Family for the good care he has received there, and we have witnessed the Caring way the nurses have provided in every way."

- Michael P.

"We just want to thank each and every one of you for the kindness and caring you showed to our dad during his short stay there. It meant so much to us to see how well you care for everyone there. The phone calls, the smiles, the hugs – all given freely and from the heart."

-Jim & Jeri

**"Our mission is to make our facility a place our patients and residents can feel like home."**

## Mission de la Casa

NURSING & REHABILITATION CENTER

*"We strive to provide the safety, compassion and unity that you would feel from your own family."*

[missiondelacasa.com](http://missiondelacasa.com)

*"Whether the stay is planned to be short or long, we treat each journey with the warmest care."*

## Skilled Nursing Services

Neurological Disorders	Orthopedic Conditions
Neuromuscular Disorders	Pain Management
Amputation Recovery	Arthritis and Rheumatism
Post- Surgical Recovery	Speech and Swallowing Disorders

## Alzheimer's & Dementia Nursing Care Unit

Caring for a family member or loved one with advanced dementia and Alzheimer's disease at home is a challenging task that can become overwhelming at times. Each day brings new demands and challenges as family members adapt to rapidly changing levels of ability and behavior.

Mission de la Casa offers a warm and caring environment in our Memory Care Unit, where we help residents' function at their highest possible level while enhancing their quality of life. We customize and create individual plans of care for each resident to meet their unique needs.

## Rehabilitation (In-Patient /Out-Patient)

### Physical Therapy
